St Saviour's Church of England Junior School

Policy:	Health and Safety Policy
Review Period:	Annual
Ratified by Governing Body:	October 2025
Date of next review:	October 2026

Christian Vision

St. Saviour's fosters a strong sense of community and belonging. We instil a sense of calmness within our school environment, just as Jesus calmed the storm, which we believe extends into the wider community. Our progressive curriculum exposes children to new experiences which gives every child the opportunity to achieve their potential. Through these principles, we seek to create an inclusive and supportive space where all individuals feel valued and journey with us through the storm and calm of life.

Christian Values

Christian values inform our actions and thoughts on a daily basis.

Community, Consideration, Courage

Our vision and values are at the core of everything we do. They underpin our teaching and learning, and provide an environment which prepares our pupils as confident, happy citizens.

How is this policy a reflection of our vision?

We want our school to be a place of calm. Having a safe, calm environment helps create a sense of belonging and promotes achievement. Our first duty is the safeguarding of all members of our Christian community. Having rigorous and Health and Safety procedures keeps everyone safe.

Section A – Introduction:

The Law Regarding Health and Safety Policies:

A written health and safety policy is a statutory requirement where an employer employs five or more people. It must be brought to the attention of the employees, and shown to an HSE Inspector or KCC auditor if requested.

An explicit safety policy demonstrates to staff, pupils and visitors that the organisation values their health, safety and welfare.

The allocation of responsibilities and the writing down of particular arrangements to implement the policy encourages a coherent approach to the management of health and safety.

For schools who are developing or revising their health and safety policy, this guidance and suggested detail can be presented to staff for consultation, to add specific content. After any appropriate re-drafting, this can then be presented for approval to the school management team before final adoption by the governing body. Therefore, writing the policy in consultation with all staff clarifies the arrangements made and helps give them ownership.

This process also provides for information to be shared later with others such as visitors and contractors.

The policy will then be reviewed annually in line with the cycle on the management plan but will be amended if new legislation/procedures etc. make this necessary.
